## WORK EXPERIENCE

---

### AI Center of Excellence & Deep Learning Brasil

Aug. 2020 – Present

Undergraduate Student Researcher

Brazil

- Deep Learning Brasil is a scientific laboratory financed by private companies.
- My core responsibilities are to investigate and improve models for NLU in production environments.
- I have worked on intent recognition, entity linking, information extraction and question answering.

### Federal University of Goiás

Mar. 2019 – Present

Undergraduate Student Researcher

Brazil

- In this role, I perform scientific research and evaluation of state-of-the-art models in NLP.
- I have published and presented three papers at major peer-reviewed conferences in Brazil and Europe.
- I have established new state-of-the-art results for textual entailment and word segmentation.

## EDUCATION

---

### Federal University of Goiás

Mar. 2017 – Present

Bachelor in Computer Science

Brazil

- **Expected Graduation Date: August 2021.**
- Received an Outstanding Student Award. 3.4/4.0 GPA.
- Received a Certificate of Honor in recognition of having achieved the 1st place at the II Evaluation of Semantic Textual Similarity and Textual Inference in Portuguese ( ASSIN 2 ).

## SKILLS

---

- **Hard skills:** Python, Docker, Linux, Git, PyTorch, Tensorflow, Natural Language Processing libraries (NLTK, Gensim, spaCy, Transformers), Data Science libraries ( Pandas, NumPy, scikit-learn ), Javascript, Node.js.
- **Soft skills:** Problem Solving, Communication, Writing, Public Speaking.
